

BABY LOCK SEWING ACCESSORIES

Heavy Weight Foot

(BLQP-HW)

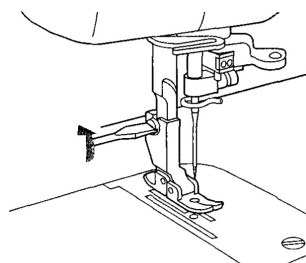

Instructions

When sewing with thick, lofty or high-pile fabrics like fleece, sherpa or faux fur, it's easy for the fabric to get caught by the needle. This foot is designed with an inclined toe that gradually flattens the fabric as it feeds through your machine, preventing the fabric from catching.

INSTRUCTIONS:

1. Raise presser foot and raise the needle to the highest position.
2. Loosen and remove screw using the screwdriver included with your machine.
3. Attach the Heavy Weight Foot and tighten the screw.
4. Select a straight stitch. Sew.
