

Gathering foot

#L18

1

Information

Purpose

- To gather and simultaneous sewing thin fabrics on a flat piece of fabric.

For your safety

Before using this accessory, please read the instruction manual at hand as well as the instruction manual of your machine carefully.

Markings

- A Left needle LN
- B Right needle RN
- C Cutting line at cutting width 6

Application

Gathering and sewing fabric

- > Select a 4-thread overlock stitch and thread the machine.
- > To achieve maximum gathering, set the differential feed to 2.
- > Place the material to be gathered under the presser foot and sew one stitch into the fabric.
- > To prevent the fabric from slipping, select needle position down.
- > Cut the seam allowance of the fabric which remains flat by half of the presser foot length.
- > Raise the presser foot.
- > Place the flat fabric into the presser foot. In doing so, push the fabric close to the needle and position it next to the knife. (Fig. 2)
- > Sew the fabric layers together. (Fig. 3)

Tip:

- > To enlarge the pleat formation, elongate the stitch length.
